Project Name	Project - SMART FASHION RECOMMENDER APPLICATION

LOGIN PAGE :

The screenshot displays a web browser window with the address bar showing the file path: C:/Users/ishun/OneDrive/Desktop/application/Login.html. The browser's navigation bar includes back, forward, and refresh buttons, along with icons for file, star, and a red globe. The main content area features a vibrant pink and purple gradient background. Centered on this background is a white login form titled "Login Form". The form contains two buttons at the top: a pink "Login" button and a white "Signup" button. Below these are two input fields labeled "Email Address" and "Password". A link labeled "Forgot password?" is positioned below the password field. At the bottom of the form, there is a pink "Login" button and a link that reads "Not a member? Signup now".

SIGNUP PAGE :

The image shows a web browser window with a dark theme. The address bar displays the file path: C:/Users/ishun/OneDrive/Desktop/application/Login.html. The page has a vibrant pink-to-purple gradient background. In the center, there is a white rounded rectangle containing the 'Signup Form'. At the top of this form is the title 'Signup Form'. Below the title are two buttons: 'Login' (white with black text) and 'Signup' (pink with white text). Underneath these buttons are three input fields: 'Email Address', 'Password', and 'Confirm password'. At the bottom of the form is a large, wide 'Signup' button with a pink-to-purple gradient and white text.

DATA BASE CONNECTION :

The image shows a JupyterLab interface. At the top, there's a header with the Jupyter logo, the text 'jupyter ASS', and 'Last Checkpoint: a few seconds ago (unsaved changes)'. On the right, there's a 'Logout' button. Below the header is a menu bar with 'File', 'Edit', 'View', 'Insert', 'Cell', 'Kernel', 'Widgets', and 'Help'. To the right of the menu bar are 'Trusted' and 'Python 3' buttons. Below the menu bar is a toolbar with icons for file operations, running, and code execution. The main area contains a code cell with the following Python code:

```
In [1]: import ibm_db

hostname = '9938aec0-8105-433e-8bf9-0fbb7e483086.c1ogj3sd0tgtu0lqde00.databases.appdomain.cloud'
uid = 'qfk33398'
pwd = 'jnffMaLIeTZcout'
driver = "{IBM DB2 ODBC DRIVER}"
db = 'bludb'
port = '32459'
protocol = 'TCPIP'
cert = 'CRT1.crt'

dsn = (
    "DATABASE = {0};"
    "HOSTNAME = {1};"
    "PORT = {2};"
    "UID = {3};"
    "SECURITY = SSL;"
    "SSLServerCertificate = {4};"
    "PWD = {5};"
).format(db, hostname, port, uid, cert, pwd)
print(dsn)
try:
    db2 = ibm_db.connect(dsn, "", "")
    print("connect to database")
except:
    print("unable to connect ", ibm_db.conn_errormsg())
```

Below the code cell, the output is displayed:

```
DATABASE = bludb;HOSTNAME = 9938aec0-8105-433e-8bf9-0fbb7e483086.c1ogj3sd0tgtu0lqde00.databases.appdomain.cloud;PORT = 32459;UID = qfk33398;SECURITY = SSL;SSLServerCertificate = CRT1.crt;PWD = jnffMaLIeTZcout;
connect to database
```
