**TASK**

Date	13th October 2022
Team ID	PNT2022TMID25979
Project Name	Project – Project Design Phase -2 Data Flow Diagram And User Stories
Maximum Marks	4 Marks

DATA FLOW DIAGRAM AND USER STORIES

DATA FLOW

USER STORIES

USER TYPE	FUNCTIONAL REQUIREMENT	USER STORY NUMBER	USER STORY/TASK	ACCEPTANCE CRITERIA	PRIORITY	RELEASE
Customer	Registration	USN1	User realizes that they do not have an account, and wants to create one now	Register	High	Sprint 1
		USN2	User entered the correct credentials for authentication	Successful Registration	High	Sprint 1

		USN3	User entered incorrect credentials for authentication	Unsuccessful Registration	Medium	Sprint 1
	Login	USN1	User entered the correct credentials for authentication	Successful Login	High	Sprint 1
		USN2	User entered incorrect credentials for authentication	Unable To Login	High	Sprint 1
		USN3	User realizes that they forgot the credentials	Forgot Credentials	High	Sprint 1
	Dash Board	USN1	For finding the products that match the search criteria, use the following attributes in the order	Product name Product variation name Product short description Product long description Product reviews	High	Sprint 1
		USN2	For finding the categories that match the search criteria, use the following attributes in the order listed below.	Category name Category short description	Medium	Sprint 1
		USN3	Full and partial match should be attempted.	For a partial match, at least 3 characters should match. A minimum of 3 characters needs to be entered to find a match.	High	Sprint 1

	Customer Care Executive	USN1	Payment gateway connectivity problem	Send order details to the fulfilment system within 30 minutes of customer completing the checkout process	Medium	Sprint 1
Administrator	Web Page	USN1	It should be possible to configure via the administration console the date range during which this banner needs to be displayed.	The user should be mandated to enter both the 'from' and 'to' dates for the date range. The banner should automatically appear and disappear according to the date range.	High	Sprint 1
		USN2	It should be possible to configure the banner such that it is personalized for each user. The following four user segments should be available for this configuration.	Anonymous user Signed-in user who is not a loyalty program member Signed-in user who is a loyalty program member but has no loyalty points Signed-in user who is a loyalty program member and has at least one loyalty point	Medium	Sprint 1
		USN3	For each user segment, it should be possible to configure the image and the link upon clicking the image.	Anonymous user - <image link> - link to "registration page" Signed-in user who is a loyalty program member but has no loyalty points - <image link> - no link	Low	Sprint 2
